cimplifi™

Corporate Transactions & Antitrust

From due diligence to Second Requests, we can take you through the entire M&A lifecycle with a fully integrated client experience that bridges contract analytics and eDiscovery.

Cimplifi was founded in 1997 to deliver a better approach to Hart-Scott-Rodino (HSR) Second Requests—we continue to lead the way with technology-driven contract analytics and review solutions to support due diligence, litigation, and investigations. We deliver insight, efficiency, and speed to help you make more informed M&A decisions and respond to antitrust actions with confidence.

A TRUE END-TO-END SOLUTION

From initial due diligence to inform your M&A strategy to quickly responding to an antitrust challenge, we have solutions to help you get a handle on the content and obligations within your contracts, review and evaluate large volumes of complex data, and produce information to stakeholders in a timely and effective manner.

AI-POWERED WORKFLOWS

We leverage cutting-edge eDiscovery and contract analytics technologies and battle-tested DOJ/FTC-proven workflows to deliver critical information and insights, maximize efficiencies, and decrease review population, while increasing review speed and QC accuracy.

INDUSTRY-VETERAN EXPERTS

We bring together some of the most highly skilled and seasoned project managers, contract attorney reviewers, data scientists, analytics experts, and consultants in the industry, delivering a team of experts who can help you make more informed decisions and meet deadlines with confidence.

Second Requests are second nature to us.

Meet the aggressive timelines and demands of Second Requests with confidence. Our expertise comes from hands-on experience supporting Second Requests of all sizes, across many industries. Some of our experience includes:

- **Waste Management/Advanced Disposal**
- **Ashland Global/INEOS**
- **Aetna/CVS**
- **Disney/21st Century/Comcast**
- **Sprint/T-Mobile**
- **Breakthru Bev/RNDC**
- **AB/In-Bev/SAB Miller**
- **Caraustar/Newark Group**
- **AT&T/Direct TV**
- **PPL Corp/Talen Energy**
- **AT&T/Leap Wireless**
- **Zillow/Trulia**
- **Delhaize (Food Lion)/BI-LO**
- **ProMedica/St.Luke's**
- **AT&T/T-Mobile**
- **Comcast/NBC Universal**
- **Hitachi/Western Digital**
- **AirTran/Southwest**
- **First Energy/Allegheny Power**
- **Delta/Northwest**
- **Genentech/Tanox**
- **XM/Sirius**

Built for the deadline, defensible under scrutiny.

Second Requests compress years of discovery into weeks. We scope the population early, reduce it aggressively, and document every decision so the record holds up with the DOJ or FTC.

REDUCE BEFORE YOU REVIEW

Advanced analytics, predictive coding, and prioritized workflows cut the review population before attorneys touch a document. Less data means less cost and a faster path to certification.

WORKFLOWS THE AGENCIES HAVE SEEN

We negotiate and deploy workflows the reviewing agency has approved, including email threading approaches that let you produce only the most inclusive messages.

SCALE ON DEMAND

We stand up review teams in the hundreds across multiple cities, with licensed attorney project managers and quality control built into every pass.

A $5 billion merger, cleared.

- → 20+ TB collected
- → 25M documents hosted
- → 10M+ documents produced
- → Hundres of review attorneys across three cities

The agency approved our email threading workflow, letting us produce only the most inclusive messages.

Have a deal in motion?

Bring us in before the clock starts. We will walk your team through scope, timeline, and cost in a single call.
