

CI Image

Manipulate images with ease

CI Image creates a more efficient way to manipulate images, from within Relativity. CI Image simplifies the process of image manipulation, making image production easier to do, no longer requiring you to learn a new tool, or export out of Relativity, saving time and frustrations.

SEAMLESS INTEGRATION

From within Relativity, you can now crop images, add watermarks, report on image dimensions, and add custom exhibit stamps to images.

EXPORT EFFICIENCY

Reduce manual intervention and errors that typically occur when exporting images out of and back into Relativity.

FULL CUSTOMIZATION

Customized watermarks and exhibit stamps can be placed at any angle, they can be transparent, any color or font, and text can be added to customize your image watermark.

CI Image

☒ Crop ☐ Watermark ☐ Report on Image Dimensions ☐ Exhibit Stamp

☒ Original Image ☐ Production Image

Job Name *

Crop from top of image 0 px

Crop from bottom of image 0 px

Crop from left of image 0 px

Crop from right of image 0 px

The cropping process must have at least one value

PREVIEW RUN

IMAGE ANALYSIS

Leverage Azure Vision to automatically identify and tag objects within images, and generate descriptive captions to provide context at a glance, helping reviewers quickly understand image content without manual inspection.

THUMBNAIL VIEWER

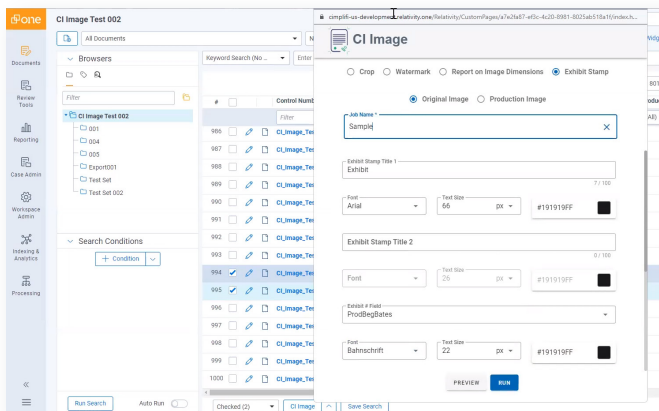

This intuitive interface allows users navigate large volumes of visual data by scrolling through thumbnail-sized previews of all analyzed images, enabling faster triage and more efficient review workflows.

IMAGE CONTROL

Easily adjust or undo image changes and backup images will be stored and tracked inside the Relativity database, tracked inside the ARM.

COMPLIMENTARY ACCESS

No additional costs or tools are required to use CI Image as a Cimplifi Relativity client. CI Image is available to all user types.

CI Image Job Status

The best technologies, made better.

Cimplifi Innovations combine proprietary tools, automated workflows, AI, and integrated technologies to simplify administration, improve visibility, and streamline legal operations across users, matters, and platforms.

STREAMLINED ADMINISTRATION

Centralize workflows, users, and processes through integrated tools and automated administration.

INTEGRATED INSIGHTS

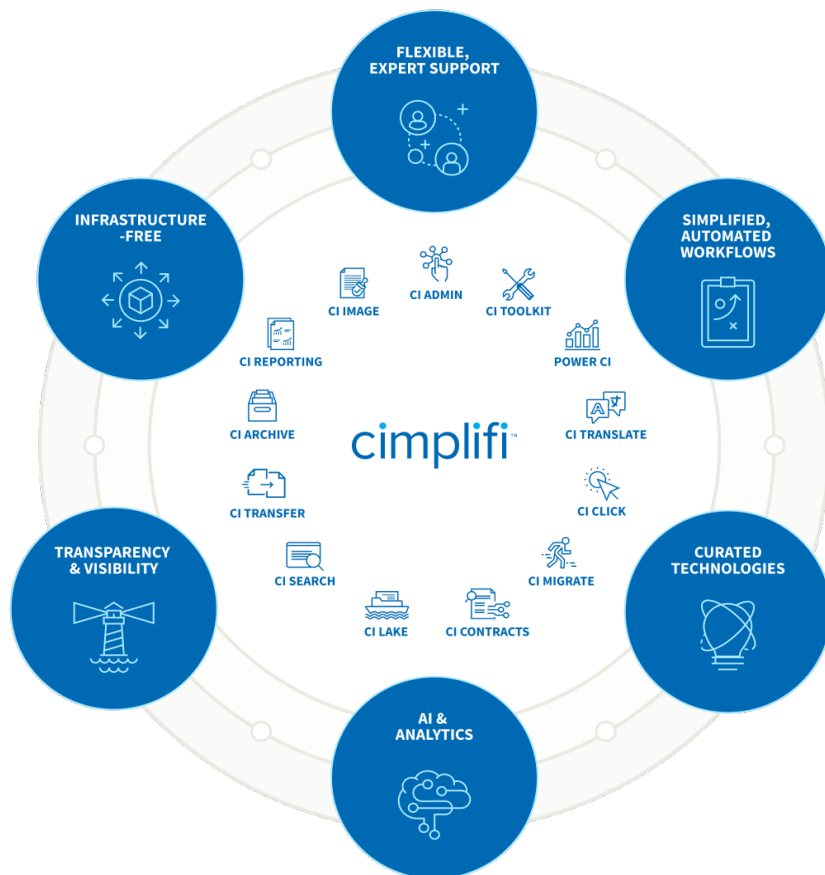

Unified dashboards, reporting, and analytics provide greater visibility across matters, contracts, and operations.

AI-ENABLED WORKFLOWS

AI and automation help reduce manual effort, improve consistency, and accelerate outcomes.

FLEXIBLE & SCALABLE

Deploy innovations independently or together as part of a connected operational experience.

Greater visibility. Less complexity. Better workflows.
