

CI Archive

Manage and control your data footprint with ease.

With just a few clicks, you can archive, restore, and move (ARM) Relativity workspaces for ultimate flexibility and efficiency in storage. Place the ARM on your internal servers, a stored hard drive, or have the option for archive storage from Cimplifi at a far lower storage rate.

CUSTOM SECURITY POLICIES

CI Archive gives permission to “create ARMs” to client admins in Relativity, eliminating Relativity’s constraints in limiting ARM creation to users with system admin credentials. Any authorized user can kick off an ARM for the ultimate in ease.

INTUITIVE INTERFACE

CI Archive features a straightforward, simple-to-use interface that eliminates any confusion from creating an ARM.

The best technologies, made better.

Cimplifi Innovations combine proprietary tools, automated workflows, AI, and integrated technologies to simplify administration, improve visibility, and streamline legal operations across users, matters, and platforms.

STREAMLINED ADMINISTRATION

Centralize workflows, users, and processes through integrated tools and automated administration.

INTEGRATED INSIGHTS

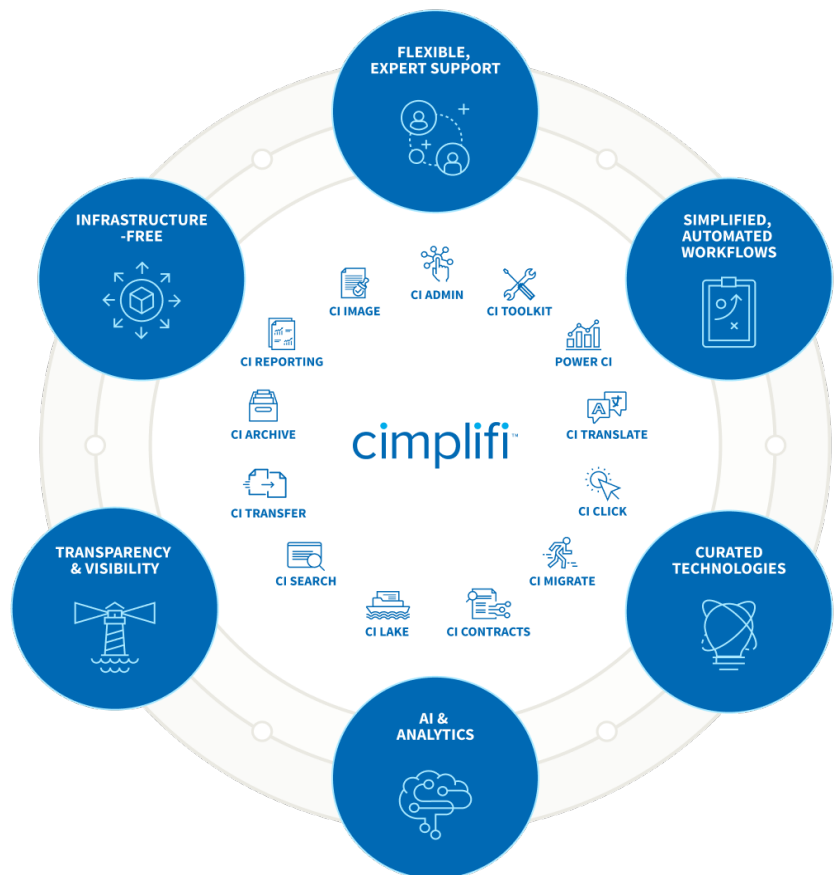

Unified dashboards, reporting, and analytics provide greater visibility across matters, contracts, and operations.

AI-ENABLED WORKFLOWS

AI and automation help reduce manual effort, improve consistency, and accelerate outcomes.

FLEXIBLE & SCALABLE

Deploy innovations independently or together as part of a connected operational experience.

Greater visibility. Less complexity. Better workflows.
