

CI Contracts Process with **Relativity** Contracts

Contract analytics and eDiscovery converge in the industry's first end-to-end contract analytics and review platform leveraging the most advanced AI technologies in the industry.

EXPEDITE LARGE-SCALE CONTRACT REVIEW WITH CI CONTRACTS

Leveraging CI Contracts and the analytics built into Relativity Contracts, contract portfolios undergo search, deduplication, analysis, key data extraction and review, culminating in a report for analysis, reducing time, resources, and costs typically associated with large-scale contract review.

Artificial intelligence and hands-on legal and contracts expertise come together with CI Contracts.

We leverage proven technologies, methodologies, and custom analytics to reduce the documents that require eyes-on review, helping you find and analyze contracts faster, with increased accuracy and efficiency.

Uniting technology and decades of experience delivering top tier consulting and professional services, Cimplifi leverages the power of AI to surface key information and provide vital insights from contract portfolios. By harnessing Relativity Contracts, CI Contracts significantly diminishes the workforce and hours needed for projects, optimizing the advantages and functionality of the software. Our attorney-led, technology driven solutions distill complexity and quickly surface the data that matters most, empowering you to streamline multiple use cases. The most prominent use cases include:

REGULATORY

- RESPONDING TO REGULATORY REQUESTS ARISING FROM CRISES SUCH AS BANK FAILURES

CYBERSECURITY

- DATA PROTECTION and DATA BREACH PREPARATION and RESPONSE

MERGERS & ACQUISITIONS

- DUE DILIGENCE, POST MERGER INTEGRATIONS, and DIVESTITURES

DATA MIGRATION

- DATA PREPARATION and DATA EXTRACTION FOR CLM

We are the contract AI experts.

Purpose built for a wide range of use cases, including M&A projects and regulatory requests, CI Contracts integrates RelativityOne with a variety of leading contract analysis tools. Our experts utilize RelativityOne to ingest your contracts for baseline searching and culling, then the extracted contracts can be analyzed for key clauses or key data points, resulting in a custom analysis report and/or RelativityOne workspace to further attorney review. With CI Contracts, you can extract data points for various use cases, by clauses, by industry vertical, agreement type, no matter the regulatory or business requirement or scope.

Key Benefits:

AUTOMATED CONTRACT ANALYTICS

The LLM replicates traditional contract analytics, extracting critical clauses and answering fundamental questions such as:

- Parties involved
- Force majeure clauses
- Governing clauses
- Start and end dates

EFFICIENCY AND COST SAVINGS

By utilizing AI for document review, we eliminate the need for extensive human reviewer teams, saving time, costs, and resources. The AI engine performs functions traditionally done by human reviewers, enhancing efficiency.

INTEGRATED SOLUTION

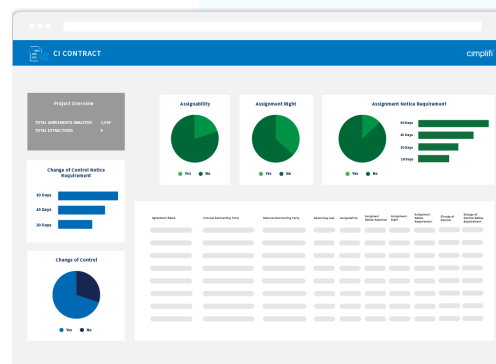

Unlike traditional methods where eDiscovery teams rely on separate analytics platforms, our integration brings the technology directly into Relativity. This eliminates the need for complex regular expressions and allows for more intuitive natural language queries, accessible to non-technical users.

ENHANCED DOCUMENT RELATIONSHIPS

CI Contracts efficiently reviews thousands of contracts to identify parent agreements and amendments, a task that previously required manual review. The AI automates this analysis, ensuring accurate document family relationships.

CONTRACT ROLL-UP FEATURE

This innovative feature consolidates various contract versions and amendments into a single master document. Users no longer need to manually read through all contract versions, as the AI combines them into one comprehensive document.

CI Contracts is transforming the landscape of contract review by integrating advanced AI technology directly into Relativity. This solution not only enhances efficiency and reduces costs but also simplifies the analytics process, making it more accessible and effective.

Embrace the future of contract review with CI Contracts. Reach out to speak to one of our experts.
