

CI Search

An advanced automated search term normalization platform that reduces the manual process of reviewing and validating search terms, preventing common errors and inaccurate results.

ADVANCED SEARCH FUNCTIONALITY

Available in RelativityOne, CI Search offers text retrieval and advanced search functionality that reduces the manual process of reviewing search terms, normalizing them, ensuring they work while alleviating frustrations when search terms fail.

Original Expression	Result	Rules	Comments
cats and dogs	cats AND dogs	Lowercase operator(s) Duplicate terms detected	The expression contain lowercase operator that will be capitalized Duplicate term(s) detected
bird OR fish	bird OR fish	Extra space(s)	The expression contain multiple spaces that will be removed
squirrel /3 tree	squirrel W/3 tree	Incorrect proximity syntax	The expression contain missing within operators that will be added
walk the dog	"walk the dog"	Imbalanced quotation marks Noise word(s) within term	Inserted missing quotation mark(s) Noise word(s) detected
'this is a long phrase' /4 'another phrase'	"this is a long phrase" W/4 "another phrase"	Incorrect proximity syntax Noise word(s) within term	The expression contain missing within operators that will be added Noise word(s) detected
cats and dogs	cats AND dogs	Lowercase operator(s) Duplicate	The expression contain lowercase operator that will be capitalized

SEARCH TERM VALIDATION

CI Search prevents common errors, omission, and high-risk mistakes typically made by users resulting in under and over inclusive search results and sanctions.

REDUCE INACCURATE RESULTS

Reduce inaccurate search results and level up your basic dtsearch/search term evaluation while helping users eliminate errors and omissions. CI Search identifies search terms that require further examination and help draw your eye to risk in the search terms.

Name	CSV File	Dt Search	Created Date	Created By	Actions

The best technologies, made better.

Cimplifi Innovations combine proprietary tools, automated workflows, AI, and integrated technologies to simplify administration, improve visibility, and streamline legal operations across users, matters, and platforms.

STREAMLINED ADMINISTRATION

Centralize workflows, users, and processes through integrated tools and automated administration.

INTEGRATED INSIGHTS

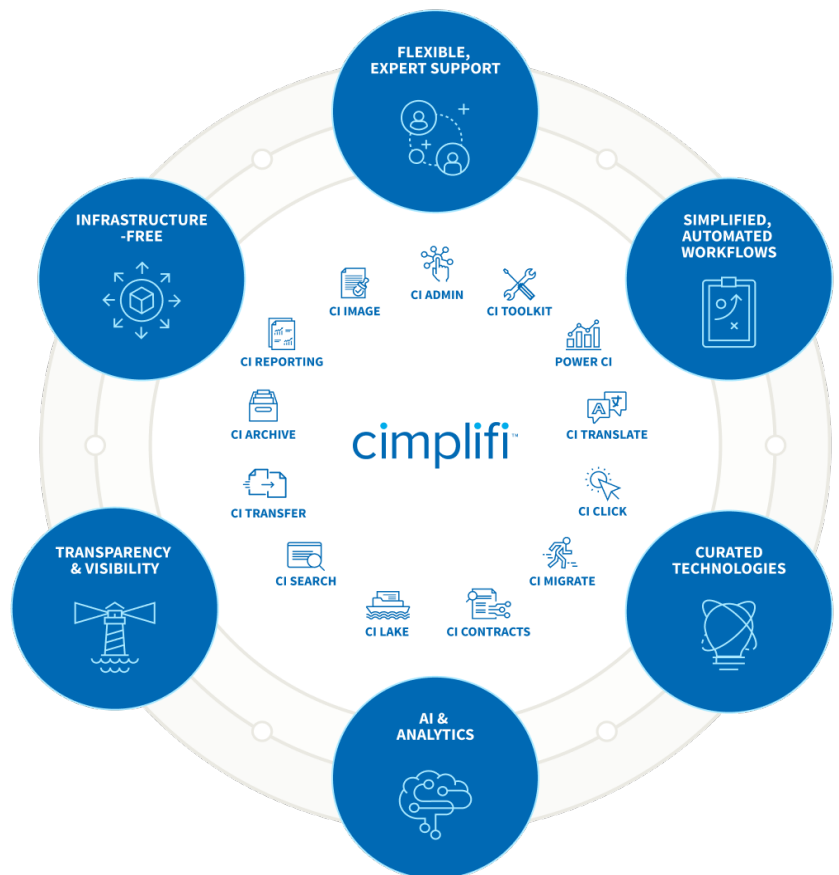

Unified dashboards, reporting, and analytics provide greater visibility across matters, contracts, and operations.

AI-ENABLED WORKFLOWS

AI and automation help reduce manual effort, improve consistency, and accelerate outcomes.

FLEXIBLE & SCALABLE

Deploy innovations independently or together as part of a connected operational experience.

Greater visibility. Less complexity. Better workflows.
