

# Cimplifi™ Innovations

## Client-driven innovations offer integration with intelligence.

Developed with client input and designed to solve your workflow challenges, our CI tools deliver a seamless, user-friendly experience, valuable insights and benefits, all with less complexity and effort.

### CI ADMIN

The ultimate tool, offering convenience and simplification through streamlined administration and expansive tool permissions. Featuring SSO log-in, cross-tool user management, and custom enhancements.

### CI IMAGE

Manipulate images, customize watermarks and exhibit stamps, now with ease and efficiency from within Relativity.

### CI CLICK

A single click, multi-select coding button in Relativity. Reviewers can quickly code multiple fields like responsiveness, confidentiality, privilege, and issues in one click.

### CI TRANSCRIBE

Minimize discovery spend and time by transcribing, searching, and analyzing audio and video evidence to quickly identify and focus on relevant data only.

### CI TRANSLATE

Translate your documents on the fly in more than 50 languages using Azure Cognitive Services Translator. Its easy-to-use and intuitive design makes it simple to translate documents with just a few clicks.

### CI MIGRATE

Move your data from any review tool into RelativityOne with ease and transparency through customized best practices, workflow automation tools, and real-time status monitoring.

### CI ARCHIVE

With just a few clicks, you can ARM (archive, restore, and move) Relativity workspaces for ultimate flexibility and efficiency in storage.

### CI TOOLKIT

A full suite of data management tools with everything you need to easily manage your data prior to upload and processing.

### POWERCI

Make more informed decisions with real-time metrics and insights in CI Migrate, CI Transcribe, CI Translate and more through our unified dashboard.

### CI SUPPORT

Access a one-stop shop for all support articles and communicate with our helpdesk, project management, and techs.

### CI CONTRACT

The industry's first end-to-end contract analytics and review platform leveraging advanced AI technologies to expedite large scale contract review.

### CI SEARCH

An advanced automated search term normalization platform that reduces the manual process of reviewing and validating search terms, preventing common errors and inaccurate results.
