

Power CI - Total Workspace Transparency

Effective Usage, Storage, and Inactive Workspaces

PowerCI offers intuitive reporting and metrics for complete transparency, cost visibility, and data monitoring across cases, your environment, and users—including activity history, storage, and workspace breakdown for easier cost control and recovery.

Through PowerCI, RelativityOne users can easily see total workspace size including effective usage, active storage, repository storage, and cold storage, in one easy to access dashboard.

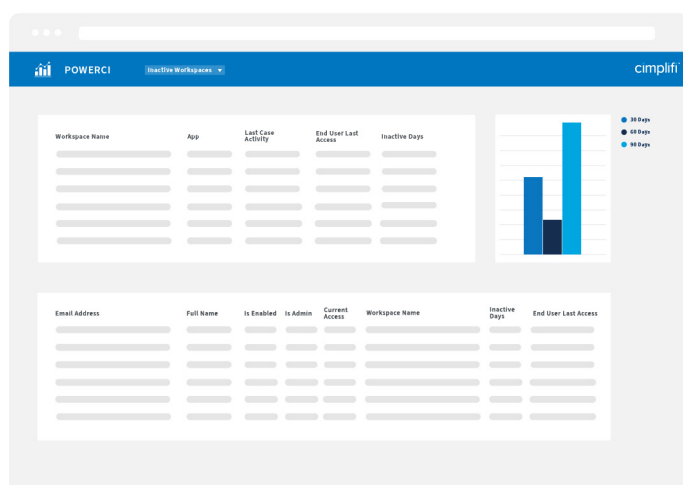

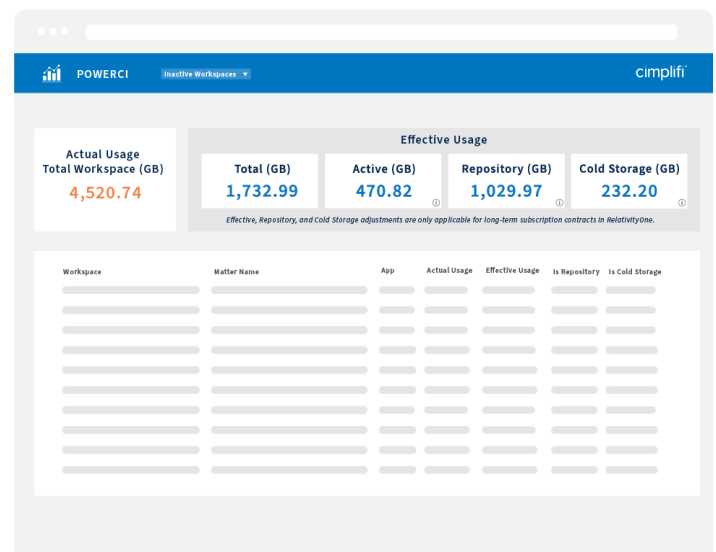

EFFECTIVE USAGE (GB)*: Sum of active usage, adjusted repository usage, and adjusted cold storage usage.

ACTIVE USAGE (GB): Shows the total size for all active workspaces.

REPOSITORY USAGE (GB): Shows the adjusted size for all repository workspaces at 33% of total size.

COLD STORAGE (GB): Shows the adjusted size for all workspaces in cold storage at 25% of total size.

**Effective usage is only applicable for long-term subscription contracts.*

The inactive workspaces dashboard provides overview data for workspaces that have not been accessed by an end user for greater than 30 days across any Relativity instance.

The workspace list gives the application in which the workspace resides, and last activity information for workspace. The interactive chart shows the count of workspaces that have been inactive for the past 30, 60, or 90+ days. The user details include corresponding status and last activity on the selected workspace.

The best technologies, made better.

Cimplifi Innovations combine proprietary tools, automated workflows, AI, and integrated technologies to simplify administration, improve visibility, and streamline legal operations across users, matters, and platforms.

STREAMLINED ADMINISTRATION

Centralize workflows, users, and processes through integrated tools and automated administration.

INTEGRATED INSIGHTS

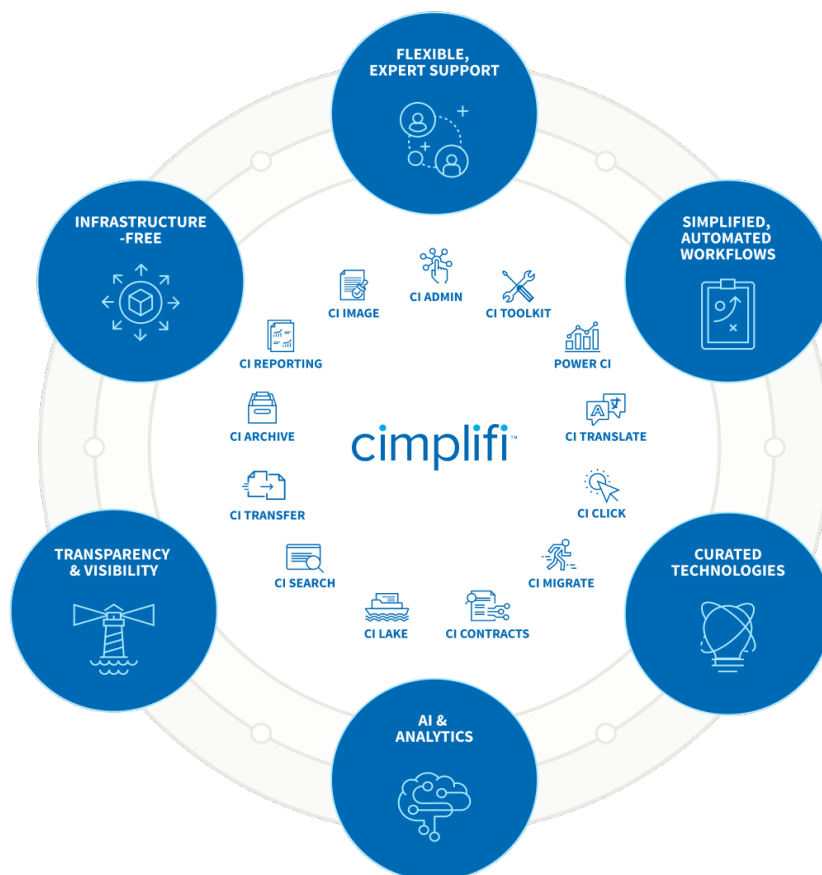

Unified dashboards, reporting, and analytics provide greater visibility across matters, contracts, and operations.

AI-ENABLED WORKFLOWS

AI and automation help reduce manual effort, improve consistency, and accelerate outcomes.

FLEXIBLE & SCALABLE

Deploy innovations independently or together as part of a connected operational experience.

Greater visibility. Less complexity. Better workflows.
