

# Privacy compliance doesn't have to be so hard.

SafeGuard Privacy is the only solution built for the future of data privacy legislation that helps you answer the questions: "Is my business compliant?" and "Are my vendors compliant?"

We have everything you need to get your company on the path to compliance and mitigate risk whether you're a privacy or not.

- ✓ **Comprehensive Assessments.** We did the necessary 1,000's of hours of research on the privacy laws and wrote all of the questions so you don't have to.
- ✓ **Automated Gap Analysis.** Your task board gets filled in and gap analysis is created as you answer questions so you know what work needs to be done.
- ✓ **Workflow Management:** No matter where you are, working with your teammates in our Kanban-style workflow management is easy – and creates an audit trail.
- ✓ **We're harmonious** and compliment your other privacy tools.
- ✓ **Start right away.** No setup or customization needed.

*We make this easy!*

**10X**

**Speed to Compliance**

Get the work done in weeks, not months

**1,000+**

**Hours Saved**

Vs. starting from scratch or using a framework

**\$25k-\$2M**

**Range of Savings**

Both the time and money of doing the work yourself

**We help you:**

- SafeGuard your customers.
- SafeGuard your business.
- SafeGuard your reputation.
- SafeGuard your vendors.
- SafeGuard your time.
- SafeGuard your money.
- SafeGuard your job.
- SafeGuard your privacy.

**Privacy starts here.**

# Your vendors? Your responsibility. We make third-party risk manageable.

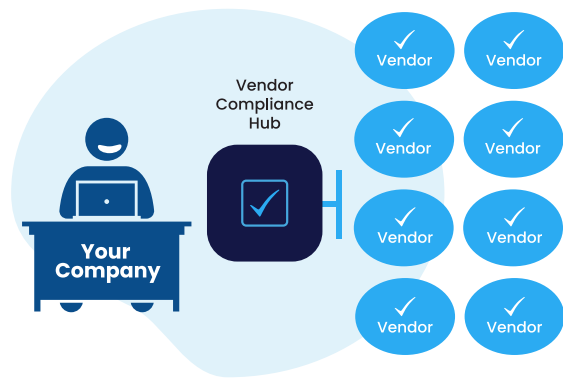

You wouldn't sign a contract with a vendor without verifying their InfoSec practices through detailed questionnaires. You shouldn't work with vendors without understanding their privacy compliance either.

Whether you have 10 or 1,000s of vendors, the Privacy Vendor Compliance Hub will save you time and money, and allow you to continuously monitor your vendors. **No spreadsheets, no email chasing.**

Take your vendor compliance from this...

To this:

## What are the benefits?

**Vendor compliance in months, not years.** We've written the assessment questions for you and made them easy for your vendors to follow and answer.

**More efficient.** No more spreadsheets, RFIs, endless emails and tracking madness. Collaborate with your team and manage your vendors in one single dashboard.

**It's reportable.** Output a compliance reporting snapshot so when someone asks "where are we on vendor privacy compliance?" you'll be able to share it concisely and visually.

**Reduction of risk.** Event-logged, fully auditable compliance platform allows you to share with regulators or auditors to demonstrate compliance and mitigate your own liability and third-party risk.

Manage all your vendors in a single dashboard

Deep dive into your vendors' answers to understand risks
