We are the contract AI experts.

Large scale contract reviews often involve unorganized, unknown, and massive datasets. You may not know what provisions you have in your contracts or what you may need extracted from a contract. With CI Contract, you can extract data points for various use cases, by clauses, by industry vertical, agreement type, no matter the regulatory or business requirement or scope.

Best-of-breed technologies converge with CI Contract

Purpose built for a wide range of use cases, including M&A projects and regulatory requests, CI Contract integrates RelativityOne with the leading contract analysis tool, DocuSign Insight. Our experts utilize RelativityOne to first ingest your contracts for baseline searching and culling. Then, we extract the target contract population and load them into Insight, where custom AI models can analyze and extract hundreds of clauses or key data points, resulting in a custom analysis report and/or RelativityOne workspace to further attorney review.

Manage large scale contract reviews without requiring a huge investment in additional resources and technology. CI Contract can review and analyze thousands of contracts quickly surfacing key data.

STREAMLINE & AUTOMATE PROCESSES

Using analytics to develop more efficient and cost-effective workflows, we can automate processes that extract, analyze, and normalize data from volumes of contracts and quickly deliver an analysis that would take weeks to complete with manual review.

GAIN TRANSPARENCY & VISIBILITY

By applying advanced technology and subject matter expertise to identify a wide range of issues and provide visibility into critical contractual information, we can help you reduce risk and exposure.

EXTRACT CRITICAL DATA

With AI-powered technology, we can build models to find specific content and clauses within hidden, obscure, and complex contractual data and increase the accuracy of the information extracted from each contract.
