

CI Image creates a more efficient way to manipulate images, from within Relativity. CI Image simplifies the process of image manipulation, making image production easier to do, no longer requiring you to learn a new tool, or export out of Relativity, saving time and frustrations.

#### **SEAMLESS INTEGRATION**

From within Relativity, you can now crop images, add watermarks, report on image dimensions, and add custom exhibit stamps to images.

### **EXPORT EFFICIENCY**

Reduce manual intervention and errors that typically occur when exporting images out of and back into Relativity.
